

Dapto Leagues Club & The Grange Golf Club

Sustainability Policy

Dapto Leagues Club and the Grange Golf Club both recognise that during our course of operations and processes we impact both positively and negatively on the natural, social and economic environments.

In response to this recognition, and in the interests of leading by example, Dapto Leagues Club and the Grange Golf Club have committed to minimising the negative impacts on these three environments through continual improvement and the pursuit of best practice within our operations.

Dapto Leagues Club and the Grange Golf club will follow a set of actions to help us;

- Identify and actively engage with our key stakeholders on sustainability issues
- Set sustainability targets and key performance indicators
- Commit to ongoing training and development of our key sustainability employees
- Provide the resources required and allocate responsibilities to ensure sustainability of our actions.

Dapto Leagues Club and the Grange Golf Club aim to improve performance by adhering to the following sustainability objectives;

- To be a community leader in the areas of sustainability best practice;
- Continually strive to reduce the consumption of energy, waste and natural resources as well as the generation of waste.
- Regularly monitor the waste management system and seek to eliminate non-recyclable waste thru sustainable purchasing practices.
- Regularly monitoring resource consumption and reporting on performance utilising efficiency indicators;
- Promoting a culture of leadership, responsibility and continual improvement with our employees, members and the community.
